**Subject:** Grant of prior Environmental Clearance (EC) to the proposed project under the provision of the EIA Notification 2006 -regarding.

**Sir/Madam,**

This is in reference to your application submitted to SEIAA vide proposal number SIA/AS/INFRA2/472115/2024 dated 31/05/2024 for grant of prior Environmental Clearance (EC) to the proposed project under the provision of the EIA Notification 2006 and as amended thereof.

2. The particulars of the proposal are as below :

(i) EC Identification No.	EC24B3202AS5940692N
(ii) File No.	SEIAA 3680/2024
(iii) Clearance Type	Fresh EC
(iv) Category	B1
(v) Project/Activity Included Schedule No.	7(d) Common hazardous waste treatment, storage and disposal facilities (TSDFs),7(da) Bio-Medical Waste Treatment Facilities
(vii) Name of Project	Integrated Waste Management Facility (IWMF) comprising of CHWTSDF and CBWTF at Municipal Solid Waste Processing Facility (Lekai), Ghoramara, West Dibrugarh, Dibrugarh, Assam by M/s Mumbai Waste Management Limited (A 100% subsidiary of M/s Re Sustainability Limited)
(viii) Name of Company/Organization	MUMBAI WASTE MANAGEMENT LIMITED
(ix) Location of Project (District, State)	DIBRUGARH, ASSAM
(x) Issuing Authority	SEIAA
(xi) Applicability of General Conditions as per	No

## **EIA Notification, 2006**

In view of the particulars given in the Para 1 above, the project proposal interalia including Form-1(Part A, B and C)/ EIA & EMP Reports were submitted to the SEAC for an appraisal by the provision of EIA notification 2006 and its subsequent amendments.

The above-mentioned proposal has been considered by SEAC in the meeting held on 09/07/2024. The minutes of the meeting and all the project documents are available on PARIVESH portal which can be accessed from the PARIVESH portal by scanning the QR Code above or through the following web link [click here](#).

The brief about configuration of products and byproducts as submitted by the Project Proponent in Form-1 (Part A, B and C)/ EIA & EMP Reports / presented during SEIAA are annexed to this EC as Annexure (1).

The SEAC, in its meeting held on 09/07/2024, based on information submitted viz: Form 1 (Part A, B and C), EIA/EMP report etc & clarifications provided by the project proponent and after detailed deliberations on all technical aspects and public hearing issues and compliance thereto furnished by the Project Proponent, recommended the proposal for grant of Environment Clearance under the provision of EIA Notification, 2006 and as amended thereof subject to compliance of Specific and Standard EC conditions as given in this letter.

The SEAC has examined the proposal in accordance with the Environment Impact Assessment (EIA) Notification, 2006 & further amendments thereto and after recommendations of the SEIAA hereby decided to grant EC on 19/09/2024 for instant proposal of Sahil Anuj, MUMBAI WASTE MANAGEMENT LIMITED under the provisions of EIA Notification, 2006 and as amended thereof.

The SEIAA reserves the right to stipulate additional conditions, if found necessary.

The Environmental Clearance to the aforementioned project is under provisions of EIA Notification, 2006. It does not tantamount to approvals/consent/permissions etc. required to be obtained under any other Act/Rule/regulation. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/ Regulations or Statutes, as applicable, to the project.

The EC to the aforementioned project is under provisions of EIA Notification, 2006. It does not tantamount to approvals/consent/permissions etc. required to be obtained under any other Act/Rule/regulation. The Project Proponent is under obligation to obtain approvals /clearances under any other Acts/ Regulations or Statutes, as applicable, to the project.

The Project Proponent is under obligation to implement commitments made in the Environment Management Plan, which forms part of this EC.

### **General Instructions:**

1. The project proponent shall prominently advertise it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days indicating that the project has been accorded environment clearance and the details of MoEF&CC/SEIAA website where it is displayed.
2. The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
3. The project proponent shall have a well laid down environmental policy duly approved by the Board of Directors (in case of Company) or competent authority, duly prescribing standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental / forest / wildlife norms / conditions.
4. Action plan for implementing EMP and environmental conditions along with responsibility matrix of the project proponent (during construction phase) and authorized entity mandated with compliance of conditions (during operational phase) shall be prepared. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Six monthly progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six-Monthly Compliance Report.

5. Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.

6. The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.

7. Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

This issues with the approval of the Competent Authority.

The EC is approved for the Project location is at the existing Municipal Solid Waste Processing Facility (Lekai), Ghoramara (V), West Dibrugarh Revenue Circle, Dibrugarh (D), and the distance from Jokai Reserved Forest is 2.1 km. The location of the project is at Ghoramara Village, West Dibrugarh, Dibrugarh District with an area of 8.1 ha on non-forest land. The proposed project is a part, falling within the existing integrated facility having an area of 28.81 ha for which the Environmental Clearance (EC) was already obtained following the due process of the EIA. The proposed area for raising Green Belt is having an width of 10 (m) all around the integrated the entire Existing Municipal Solid Waste Processing Facility.

Public hearing was earlier conducted including public consultation prior to grant of the EC by the competent authority vide File No SEIAA.27/2015/EC/56/265 Dated 21.09.2015 for the entire 28.81 ha for development of Integrated Solid Waste Treatment Facility.

This project is of utmost importance because of the major waste generators of Hazardous Wastes as exist in Assam viz. Oil India Limited, Indian Oil Corporation Limited, Vedanta Ltd. (Cairn Oil & Gas), Numaligarh Refinery Limited, Brahmaputra Cracker and Polymer Limited, ONGCL, etc. The state does not have any treatment, storage and disposal facility for hazardous waste so far.

Project is falling under Schedule 7(d) common hazardous waste Treatment, Storage and Disposal Facilities (TSDFs) with the Facility having landfill only and 7(da) Common Bio-medical Waste Treatment Facilities (CBWTF) covered under Category B1.

The estimated Project Cost is Rs. 25 Cr and under EMP the Capital Cost is estimated at Rs 2.50 Crore with recurring cost of Rs 25 lakh per year. In terms of the guidelines for the CSR and the CER activities the Proponent Company has earmarked with the budget of Rs 50 Lakh as per the requirement and need based in a phased manner.

#### **Copy To**

1. The Joint Secretary, Ministry of Environment, Forest and Climate Change, Government of India, MOEF&CC, Indira Paryavaran Bhawan, Jorbagh Rd, New Delhi-110003.
2. The Secretary to the Govt. of Assam, Environment & Forest Department, Dispur, Guwahati-6 Cum Member Secretary, SEIAA, Assam for favour of kind information.
3. The Member Secretary, PCB Assam for favour of kind information.
4. The Integrated Regional Office, Ministry of Environment, Forest & Climate Change, 4<sup>th</sup> Floor, Housefed Building, G.S. Road, Rukminigaon, Guwahati-22 for kind information.
5. Office Copy.

#### **Annexure 1**

##### **Specific EC Conditions for (Common Hazardous Waste Treatment, Storage And Disposal Facilities (TsdFs))**

##### **1. General & Special Conditions By Seac**

S. No	EC Conditions
1.1	<p><b>General Conditions:</b> Upon hearing the party and due deliberation the Committee deemed it appropriate to invoke certain conditions in the EC as under :</p> <p><b>Special Conditions:</b></p> <ol style="list-style-type: none"> <li>1) For development of Green Belt around the area the plant species should be tolerant to the air pollution in the area and should invariably be given priority. Preferred plant species, so suitable for the area shall be Safed Siris (<i>Albizia procera</i>), Kadam (<i>Neolamarckia cadamba</i>), Ow tenga (<i>Dillenia indica</i>), Thekera (<i>Garcinia morella</i>), Bor Thekera (<i>Garcinia pedunculata</i>), Cham (<i>Artocarpus chaplasha</i>), Bot gos (<i>Ficus benjamina</i>), Uriam (<i>Bischofia javanica</i>), Chatiana (<i>Alstonia scholaris</i>), Hollock (<i>Terminalia myriocarpa</i>), Hilikha (<i>Terminalia chebula</i>), Leteku (<i>Baccaurea rammiflora</i>) etc etc. This shall also be in addition to the local and endemic species of broad leaved evergreen plants of Upper Assam which need to be considered for the purposes.</li> <li>2) Use of Green Energy around the Project area as proposed installing Solar lights, LED bulbs, development of adequate drainage networks with the estimated Capital Cost of Rs 5 Lakh may be increased <b>Rs 9.0 Lakh</b> with recurring cost of <b>Rs 1 Lakh</b> annually instead of Rs 0.2 Lakhs.</li> <li>3) The Company shall tie up with the Assam Gas Company Limited (AGCL) for use of CNG under guidance and advice of the PCB to discard use of Fuel wood, Coal etc.</li> <li>4) Environment Management Plan is required to ensure support by way of livelihood generation to nearby community residing in villages, skill development programme etc.</li> <li>5) The EMP budget with the Capital cost of <b>Rs 250 Lakh</b> and recurring annual expenditure of <b>Rs 25 Lakh</b> shall be spent on the activities as approved and shall not be diverted for any other purposes.</li> <li>6) Efforts may be made by the PCB, Assam with proper direction at all level to have a fair networking and tracking of all the generated hazardous and domestic hazardous waste in the districts of upper Assam, all the waste materials should invariably be routed through Pre-processing facility at Integrated Waste Management Facility at Lekai, Dibrugarh for further Co Processing.</li> <li>7) All the Hazardous waste generating units in Assam should necessarily become the Members of the Integrated Waste Management facility at Dibrugarh and to this effect the PCB, Assam may give suitable direction.</li> <li>8) The Integrated Waste Management facility shall enter into an Agreement / MoU with all the Municipal Bodies in Upper Assam for the Domestic Hazardous Waste Disposal. The Municipal Bodies of concern shall make endeavour to provide the requisite space / transfer station to the Integrated Waste Management facility in their jurisdiction for collection and storage of the Domestic Hazardous Waste and respective Regulatory Bodies may work in tandem with due permission from the PCBA.</li> <li>9) All the Health care facilities / pathological laboratories etc located within 75km radius of the facility should also become a member of the Common Biomedical Waste Treatment facility and ensure the categorization of the Wastes as per the Bio-Medical Waste Management Rules, 2016 and should be properly stored, transported to the facility for timely and scientific treatment and disposal.</li> <li>10) The Integrated Waste Management facility shall promote circularity by maximizing the Recycling, Re-use, Pre-Processing of the wastes and shall do the disposal through Co-processing to reduce burden on landfill and to increase the life of secured engineered landfill.</li> <li>11) Under the proposed CER activities containing the details with the proposed targets in physical terms showing financial expenditures as are reflected for each year keeping in view the public demand / requirement are to be fulfilled, as approved, for the 1<sup>st</sup> 3 years with the allocated budgetary provision of <b>Rs 50 Lakh</b> without any deviation which need to be uploaded in the PARIVESH portal as a Half Yearly Compliance Report.</li> <li>12) The Company as volunteered during deliberation for development of the Biodiversity Park at Jokai area as a part of the CER activity within the Jokai RF, a place of public importance, under the management of the DFO, Dibrugarh Division shall facilitate maintenance and</li> </ol>

S. No	EC Conditions
	<p>development of the same enabling conservation and propagation of very rare and threatened species of plants for awareness among the visitors, the tourists and bear the cost of expenses for such works to the tune of <b>Rs 25 Lakh</b> within the 1<sup>st</sup> two years under due consultation with the DFO in terms of the conservation plan already prepared for the purposes.</p> <p>13) During the onset of the tourist season, wherein large numbers of tourists pour in to visit the Kaziranga National Park and Tiger Reserve, Biotoilets are required to be established at designated tourist points or State Guests as per need and found expedient in terms of the design and layout plan approved by the PWD, Assam in consultation with the Park authority. The company shall facilitate installation of the requirement of at least 25 Bio toilets in consultation with the Park authority on priority through the PWD which shall be a part of the CER activity.</p> <p>14) It shall be bounded on the project Proponent to upload the Half Yearly Compliance Report (HCR) in terms of the guidelines circulated under <b>OM No. IA3-22/1/2022-IA.III Dated 14.06.2024</b> by the ministry in the MoEF &amp; CC, GoI.</p>

**Standard EC Conditions for (Common hazardous waste treatment, storage and disposal facilities (TSDFs))**

**1. Statutory Compliance**

S. No	EC Conditions
1.1	The project proponent shall obtain forest clearance under the provisions of Forest (Conservation) Act, 1980, in case of the diversion of forest land for non-forest purpose involved in the project.
1.2	The project proponent shall obtain clearance from the National Board for Wildlife, if applicable.
1.3	The project proponent shall prepare a Site-Specific Conservation Plan & Wildlife Management Plan and approved by the Chief Wildlife Warden. The recommendations of the approved Site-Specific Conservation Plan / Wildlife Management Plan shall be implemented in consultation with the State Forest Department. The implementation report shall be furnished along with the six-monthly compliance report (in case of the presence of schedule-I species in the study area)
1.4	The project proponent shall obtain Consent to Establish / Operate under the provisions of Air (Prevention & Control of Pollution) Act, 1981 and the Water (Prevention & Control of Pollution) Act, 1974 from the concerned State Pollution Control Board/ Committee.
1.5	The Project proponent should ensure that the TSDF fulfils all the provisions of Hazardous and other Wastes (Management and Transboundary Movement) Rules, 2016.
1.6	The project proponents shall adhere to all conditions as prescribed in the Protocol for 'Performance Evaluation and Monitoring of the Common Hazardous waste treatment, storage and disposal facilities' published by the CPCB in May, 2010.
1.7	Incinerator shall be designed as per CPCB guidelines. Energy shall be recovered from incinerator.
1.8	The project proponent shall obtain the necessary permission from the Central Ground Water Authority, in case of drawl of ground water / from the competent authority concerned in case of drawl of surface water required for the project.
1.9	A certificate of adequacy of available power from the agency supplying power to the project along

S. No	EC Conditions
	with the load allowed for the project should be obtained.
1.10	All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department shall be obtained, as applicable by project proponents from the respective competent authorities

## 2. Air Quality Monitoring And Preservation

S. No	EC Conditions
2.1	The project proponent shall install 24x7 continuous emission monitoring system at process stacks to monitor stack emission with respect to standards prescribed in Environment (Protection) Rules 1986 and connected to SPCB and CPCB online servers and calibrate these systems from time to time according to equipment supplier specification through labs recognised under Environment (Protection) Act, 1986 or NABL accredited laboratories.
2.2	The project proponent shall monitor fugitive emissions in the plant premises at least once in every quarter through labs recognised under Environment (Protection) Act, 1986.
2.3	The project proponent shall install system to carryout Ambient Air Quality monitoring for common/criterion parameters relevant to the main pollutants released (e.g., PM10 and PM2.5 in reference to PM emission, and SO2 and NOx in reference to SO2 and NOx emissions) within and outside the plant area at least at four locations (one within and three outside the plant area at an angle of 120°each), covering upwind and downwind directions.
2.4	The project proponent shall submit monthly summary report of continuous stack emission and air quality monitoring and results of manual stack monitoring and manual monitoring of air quality /fugitive emissions to Regional Office of MoEF&CC, Regional Directorate of CPCB and Regional Office of SPCB along with six-monthly monitoring report.
2.5	Appropriate Air Pollution Control (As proposed, air pollution control device viz. gas quencher; treatment with mixture of hydrated lime and activated powder for adsorption of partial acidity and VOCs (if any); bag filter/ESP for removal of particulate matter; venturi scrubber followed by packed bed scrubber with caustic circulation to neutralize the acidic vapours in flue gas; and demister column for arresting water carry over will be provided to the incinerator) system shall be provided for all the dust generating points including fugitive dust from all vulnerable sources, so as to comply prescribed stack emission and fugitive emission standards.
2.6	The periodical monitoring of Dioxins and Furans in the Stack emissions shall be carried out. Analysis of Dioxins and Furans shall be done through CSIR-National Institute for Interdisciplinary Science and Technology (NIIST), Thiruvananthapuram or equivalent NABL Accredited laboratory
2.7	Gas generated in the Land fill should be properly collected, monitored and flared
2.8	A detailed traffic management and traffic decongestion plan shall be drawn up to ensure that the current level of service of the roads within a 02 kms radius of the project is maintained and improved upon after the implementation of the project. This plan should be based on cumulative impact of all development and increased habitation being carried out or proposed to be carried out by the project or other agencies in this 02 Kms radius of the site in different scenarios of space and

S. No	EC Conditions
	time and the traffic management plan shall be duly validated and certified by the State Urban Development department and the P.W.D./ competent authority for road augmentation and shall also have their consent to the implementation of components of the plan which involve the participation of these departments.

### 3. Water Quality Monitoring And Preservation:

S. No	EC Conditions
3.1	The project proponent shall install continuous effluent monitoring system with respect to standards prescribed in Environment (Protection) Rules 1986 and connected to SPCB and CPCB online servers and calibrate these systems from time to time according to equipment supplier specification through labs recognised under Environment (Protection) Act, 1986 or NABL accredited laboratories.
3.2	Sufficient number of Piezometer wells shall be installed in and around the project site to monitor the ground water quality in consultation with the State Pollution Control Board / CPCB. Trend analysis of ground water quality shall be carried out each season and information shall be submitted to the SPCB and the Regional Office of MoEF&CC.
3.3	The project proponent shall submit monthly summary report of continuous effluent monitoring and results of manual effluent testing and manual monitoring of ground water quality to Regional Office of MoEF&CC, Zonal office of CPCB and Regional Office of SPCB along with six-monthly monitoring report.
3.4	No discharge in nearby river(s)/pond(s).
3.5	The depth of the land fill site shall be decided based on the ground water table at the site.
3.6	The Company shall ensure proper handling of all spillages by introducing spill control procedures for various chemicals.
3.7	All leachates arising from premises should be collected and treated in the ETP followed by RO. RO rejects shall be evaporated in MEE. Toxicity Characteristic Leaching Procedure (TCLP) test to be performed on leachates.
3.8	The Company shall review the unit operations provided for the treatment of effluents, specially the sequencing of MEE after tertiary treatment, the source of permeate when no R.O. is recommended and the treatment of MEE condensate. The scheme for treatment of effluents shall be as permitted by the Pollution Control Board/Committee under the provisions of consent to establish.
3.9	Scrubber water, leachate water or wheel wash effluent shall be treated in the effluent treatment plant followed by RO to achieve zero liquid discharge.
3.10	Total fresh water use shall not exceed the proposed requirement as provided in the project details. Prior permission from competent authority shall be obtained for use of fresh water.
3.11	Sewage Treatment Plant shall be provided to treat the wastewater generated from the project. Treated water shall be reused within the project.

S. No	EC Conditions
3.12	A certificate from the competent authority for discharging treated effluent/ untreated effluents into the Public sewer/ disposal/drainage systems along with the final disposal point should be obtained.
3.13	Rain water runoff from hazardous waste storage area shall be collected and treated in the effluent treatment plant.

#### 4. Noise Monitoring And Prevention

S. No	EC Conditions
4.1	Noise level survey shall be carried as per the prescribed guidelines and report in this regard shall be submitted to Regional Officer of the Ministry as a part of six-monthly compliance report.
4.2	The ambient noise levels should conform to the standards prescribed under E(P)A Rules, 1986 viz. 75 dB(A) during day time and 70 dB(A) during night time.
4.3	Acoustic enclosures for DG sets, noise barriers for ground-run bays, ear plugs for operating personnel shall be implemented as mitigation measures for noise impact due to ground sources.

#### 5. Energy Conservation Measures

S. No	EC Conditions
5.1	Energy conservation measures like installation of LED/CFLs/TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning.

#### 6. Waste Management

S. No	EC Conditions
6.1	The TSDF should only handle the waste generated from the member units.
6.2	Periodical soil monitoring to check the contamination in and around the site shall be carried out.
6.3	No non-hazardous wastes, as defined under the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, shall be handled in the premises.
6.4	The Project proponent shall not store the Hazardous Wastes more than the quantity that has been permitted by the CPCB/SPCB.
6.5	The solid wastes shall be segregated, managed and disposed as per the norms of the Solid Waste Management Rules, 2016.
6.6	A certificate from the competent authority handling municipal solid wastes should be obtained, indicating the existing civic capacities of handling and their adequacy to cater to the M.S.W. generated from project.

S. No	EC Conditions
6.7	Any wastes from construction and demolition activities related thereto shall be managed so as to strictly conform to the Construction and Demolition Rules, 2016.

### 7. Green Belt

S. No	EC Conditions
7.1	Green belt shall be developed in an area as provided in project details, with native tree species in accordance with Forest Department. The greenbelt shall inter alia cover the entire periphery of the project site.
7.2	Top soil shall be separately stored and used in the development of green belt.

### 8. Public Hearing And Human Health Issues

S. No	EC Conditions
8.1	Traffic congestion near the entry and exit points from the roads adjoining the project site shall be avoided. Parking should be fully internalized and no public space should be utilized.
8.2	Emergency preparedness plan based on the Hazard identification and Risk Assessment (HIRA) and Disaster Management Plan shall be implemented.
8.3	Provision shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
8.4	Occupational health surveillance of the workers shall be done on a regular basis.

### 9. Miscellaneous

S. No	EC Conditions
9.1	The project proponent shall make public the environmental clearance granted for their project along with the environmental conditions and safeguards at their cost by prominently advertising it at least in two local newspapers of the District or State, of which one shall be in the vernacular language within seven days and in addition this shall also be displayed in the project proponent's website permanently.
9.2	The copies of the environmental clearance shall be submitted by the project proponents to the Heads of local bodies, Panchayats and Municipal Bodies in addition to the relevant offices of the Government who in turn has to display the same for 30 days from the date of receipt.
9.3	The project proponent shall upload the status of compliance of the stipulated environment clearance conditions, including results of monitored data on their website and update the same on half-yearly basis.

S. No	EC Conditions
9.4	The project proponent shall submit six-monthly reports on the status of the compliance of the stipulated environmental conditions on the website of the ministry of Environment, Forest and Climate Change at environment clearance portal.
9.5	The company shall have a well laid down environmental policy duly approve by the Board of Directors. The environmental policy should prescribe for standard operating procedures to have proper checks and balances and to bring into focus any infringements/deviation/violation of the environmental/forest/wildlife norms/conditions. The company shall have defined system of reporting infringements/deviation/violation of the environmental/forest/wildlife norms /conditions and/or shareholder's/stake holders. The copy of the board resolution in this regard shall be submitted to the MoEF&CC as a part of six-monthly report.
9.6	A separate Environmental Cell both at the project and company head quarter level, with qualified personnel shall be set up under the control of senior Executive, who will directly report to the head of the organization.
9.7	Action plan for implementing EMP and environmental conditions along with responsibility matrix of the company shall be prepared and shall be duly approved by competent authority. The year wise funds earmarked for environmental protection measures shall be kept in separate account and not to be diverted for any other purpose. Year wise progress of implementation of action plan shall be reported to the Ministry/Regional Office along with the Six Monthly Compliance Report.
9.8	Self-environmental audit shall be conducted annually. Every three years third party environmental audit shall be carried out.
9.9	The project proponent shall submit the environmental statement for each financial year in Form-V to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently and put on the website of the company.
9.10	The criteria pollutant levels namely; PM2.5, PM10, SO2, NOx (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
9.11	The project proponent shall inform the Regional Office as well as the Ministry, the date of financial closure and final approval of the project by the concerned authorities, commencing the land development work and start of production operation by the project.
9.12	The project authorities must strictly adhere to the stipulations made by the State Pollution Control Board and the State Government.
9.13	The project proponent shall abide by all the commitments and recommendations made in the EIA/EMP report, commitment made during Public Hearing and also that during their presentation to the Expert Appraisal Committee.
9.14	No further expansion or modifications in the plant shall be carried out without prior approval of the Ministry of Environment, Forests and Climate Change (MoEF&CC).
9.15	Concealing factual data or submission of false/fabricated data may result in revocation of this environmental clearance and attract action under the provisions of Environment (Protection) Act, 1986.

S. No	EC Conditions
9.16	The Ministry may revoke or suspend the clearance, if implementation of any of the above conditions is not satisfactory.
9.17	The Ministry reserves the right to stipulate additional conditions if found necessary. The Company in a time bound manner shall implement these conditions.
9.18	The Regional Office of this Ministry shall monitor compliance of the stipulated conditions. The project authorities should extend full cooperation to the officer (s) of the Regional Office by furnishing the requisite data / information/monitoring reports.
9.19	The above conditions shall be enforced, inter-alia under the provisions of the Water (Prevention & Control of Pollution) Act, 1974, the Air (Prevention & Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 and the Public Liability Insurance Act, 1991 along with their amendments and Rules and any other orders passed by the Hon'ble Supreme Court of India / High Courts/NGT and any other Court of Law relating to the subject matter.
9.20	Any appeal against this EC shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.

#### 10. Specific Conditions

S. No	EC Conditions
10.1	As per the Ministry's OM dated 30.09.2020 superseding the OM dated 01.05.2018 regarding the Corporate Environmental Responsibility, and as per the action plan proposed by the project proponent to address the socio-economic and environmental issues in the study area, the project proponent, as committed, shall provide education funds in technical training centers/ support in nearby village's schools, support in health care facilities, drinking water supply and funds for miscellaneous activities like solar street lights, battery, solar panel etc., in the nearby villages. The action plan shall to be completed within time as proposed.
